

MESSAGE FROM THE PREZ

It's too hot to cook at home, so come on out Tuesday evening, July 10, and enjoy a feast of John Walther's famous BBQ'ed pork steaks and all the fixings. We will be at Binder Park at the old tackle store. We plan to eat at 6:00. Bring a side dish or dessert. Table service along with tea and water will be provided. I am not sure of seating accommodations, so bring a lawn chair.

Just a reminder, August 14, we return to our regular meeting schedule at First Baptist Church. Board meeting will be at 6:00 with the regular meeting at 7:00.

John Walther is still looking for more fly patterns for our January/February fly tying sessions. He has 4 but looking for 4 more. Let me or John know if you have any suggestions. We would like to have our tying schedule finalized in October.

Check the calendar later in the newsletter for activities of interest. Coming up is the Branson Fly Fishing Expo July 27-28. It is being held at the Lions Community Bldg; 1015 East State Hwy 76 in Branson and starts at 9:00 a.m. each morning. Several of our members are tying at this event. (CONTINUED)

Also, plans are under way for our club outing in Arkansas. We need counts so that reservations can be finalized. The number of attendees will have an impact on the final cost. We need a final count at our September meeting. We are also soliciting for someone to organize and cook breakfast the 2 mornings we are there. Let me know if you are interested.

STREAM TEAM UPDATE

The picture at the bottom shows one more reason we want to protect our cold, clean waters. He caught 6 at Bennett the second time he held a fly rod. (Only 1 the first time). This fish was 15 inches Think what he could have done with a good instructor.

TU is serious about cold water fishing and this is one of their national policies to care for it:

1. Climate Change

Climate change poses a significant long-term threat to North America's coldwater fisheries and their watersheds, both by increasing water temperatures in critical habitat areas and by contributing to the frequency and severity of adverse weather events. TU recognizes the powerful connections between our Nation's energy choices and climate change.

TU understands that avoiding the severe harmful effects that climate change will have on coldwater fisheries and their watersheds requires both a reduction in greenhouse gas emissions from existing energy production as well as a fundamental shift in energy sources from fossil fuels to low-carbon technologies and conservation. Accordingly, TU supports policies and comprehensive systems mechanisms that will reduce greenhouse gas emissions and hasten the shift to low-carbon energy sources and conservation.

Keep enjoying and caring for our trout and teaching the youngsters.

ROY COPELAND'S POND

THE SKIES WERE THREATENING, FORTUNATELY ANY BAD WEATHER PASSED US BY THE DAY AT ROY COPELAND'S POND. THANK YOU AGAIN ROY FOR LETTING US COME OUT AND HAVE A LITTLE FUN. THE WATER WAS LOW AND I DID NOT HAVE A LOT OF HITS, BUT I DID HAVE A FEW QUALITY FISH. JOHN WALTHER WAS ABLE TO GET ONE IN TO PUT ON HIS NEW BUSINESS CARD.

REDINGTON HOME WATERS EVENT

It will be here before we know it. Our Redington Home Waters Event is happening again this year on Oct 5-6. It is being held at Hidden Valley Outfitters in Lebanon Mo.

The event will start on Friday and will culminate on Saturday with a free showing of the F3T Fly Fishing Film Tour. We will also be having a "One Fly" tournament on Saturday.

There will be vendors, giveaways, manufacturer's reps, local clubs and organizations, and experts to answer any questions you have, from saltwater species to any of the fish that call the Ozarks home.

The event is completely free including the F3T. Bring your family and enjoy a day or two on the banks of the Niangua River.

I've attached 3 flyers with info on the event.

We hope to see you there,

Jeff Trigg & Darin
